

DAYTON NUT & BOLT

Engineered Components | Specialty Fasteners | Global Strategic Sourcing

Dayton Nut and Bolt is more than just fasteners. As a locally owned company for over 50 years, we provide customized solutions for all your fastener and engineered component needs while maintaining ISO certification. Whether you need made-to-print components, standard fasteners, or a tailored inventory stock and release program, Dayton Nut and Bolt offers quality, dependability, and personalized service to deliver a superior buying experience. Dayton Nut and Bolt is your one-stop, cost effective partner dedicated to investing in your success.

STANDARD

Dayton Nut & Bolt supplies industry standard fasteners & hardware to meet your everyday needs whether for a small project or direct to your production floor. All fasteners are inspected to meet industry standard quality requirements.

ENGINEERED PRODUCT

Dayton Nut & Bolt is your trusted partner for engineered made-to-print components and custom fasteners. We manage the purchasing, manufacturing and flexible scheduled releases from prototypes and small run to full multi-year projects insuring stable pricing and consistent availability direct from our warehouse.

SPECIALS

Need a secondary process applied to a standard product? Dayton Nut & Bolt will manage the special coating, plating, painting, patching, as well as specialty machining among many other options to provide exactly what you are specifying.

GLOBAL SOURCING

Our expertise lies in sourcing the right parts from the right suppliers around the globe or right in our back yard. We have established direct relationships with a growing array of manufacturers to supply everything from cold headed rivets to stamped assemblies and everything in between. Dayton Nut & Bolt manages the yearly inventory purchases providing reduced lead times, lower minimum releases, and improved cash flow, all while insuring your stock availability.

Dayton Nut & Bolt, More than just fasteners.

DNB Services -
solutions for all your
fastener needs.

- Vendor Managed Inventory
- Warehouse Stocking Programs
- Kitting Capability
- Custom Packaging

Centrally located
to serve customers
in the Midwest
and beyond.

Vendor Managed Inventory (VMI)

Take the hassle out of managing your inventory by letting our experts handle the counting, ordering, delivery and stocking of your production or MRO component needs. We offer several service levels tailored to your individual preferences but always guarantee your needed fasteners or components.

Warehouse Stocking Programs

Utilizing the latest warehousing tools and software, our knowledgeable staff will work to keep your shipments on schedule and your operation up and running. Our planning software monitors part usage and can make recommendations to help with forecast planning insuring continuous part availability.

Kitting Capability

Need a variety of fasteners all in one kit? Let us organize, assemble, and produce the exact kits you need for your assemblies. We'll create custom kits of a few parts or several hundred to meet your exact requirements.

Custom Packaging

Dayton Nut & Bolt can develop custom packaging and labeling to meet your exact needs. We offer custom barcoding, specialty labels, custom printed bags and boxes as well as RFID tags to minimize downtime and maximize productivity for your organization.
